

Country-Specific Info 2018

Norway

Total number of higher education institutions (universities) included in U-Multirank

13

A. University coverage

U-Multirank's 2018 edition presents data on 13 Norwegian higher education institutions, with an almost 100% coverage of public universities.

New this year: U-Multirank has created a new 'Study in...' section highlighting study destinations for students. To explore 'Study in Norway', follow this [link](#).

For the full list of all universities from Norway included in U-Multirank, please follow this [link](#).

*Please note the list is sorted in alphabetical order by countries and then university names.

B. Norway's higher education performance in U-Multirank

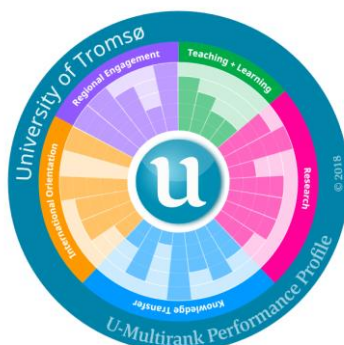

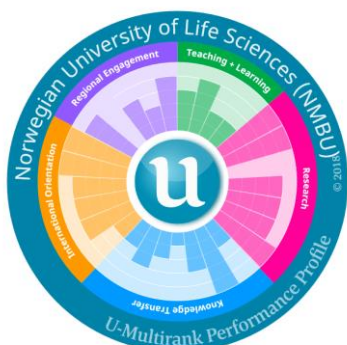

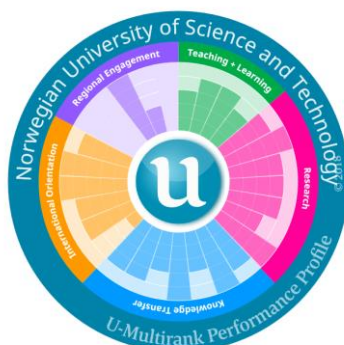

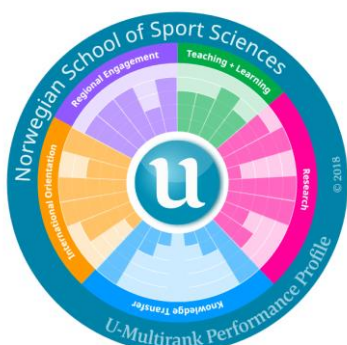

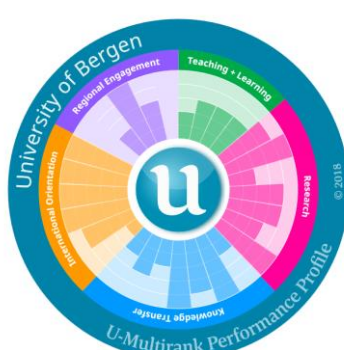

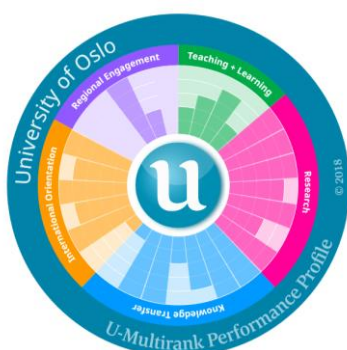

1. In a global perspective, Norwegian universities perform strongly in Research and International Orientation in general.
2. The institutions scoring the highest number of top positions across all U-Multirank dimensions include comprehensive universities as well as a technical university and specialised universities: e.g. University of Oslo, the Norwegian School of Sport Sciences and Norwegian University of Science and Technology.
3. The institutions with the highest number of top positions are University of Oslo (14), University Bergen (8) and the Norwegian School of Sport Sciences (7).
4. The University of Oslo achieved 10 out of its 14 top scores in Research and Knowledge Transfer.
5. The Norwegian School of Sport Sciences is among the global top 25 universities performing in U-Multirank's 2018 edition in Top-cited Publications, an important indicator measuring the impact of its research.

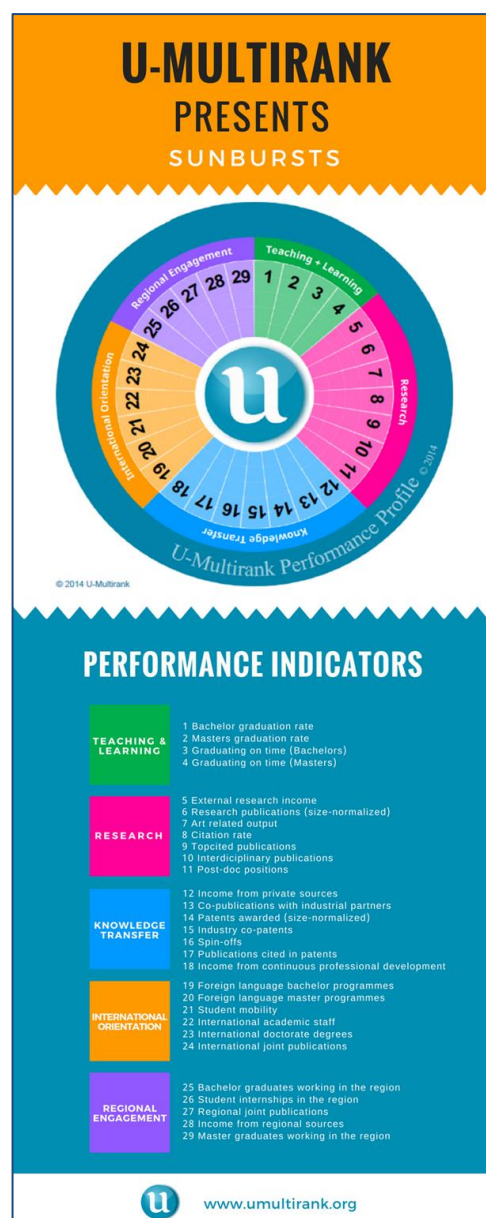

C. Universities with the highest overall number of top scores

In this section we highlight the five universities receiving the highest number of 'A' (very good) scores on the institutional level for the respective country (*in the event of ties, more universities will be shown*). Using our unique sunburst chart, a clear picture is shown of the university's overall performance (the longer the bar, the higher the score). Although the number of 'A' scores shows top performance for the respective university, it does not imply one university is the 'best' in the country, as each university profile highlights different strengths. A key guard is provided for the sunburst chart. For a list of definitions and calculations of indicators, see our [Indicator Book](#).

Norwegian universities with the highest overall number of top scores	Total 'A' scores 2018	Total 'A' scores 2017
University of Oslo	14 ↑	12
University of Bergen	9 ↑	8
Norwegian School of Sport Sciences	8 ↑	9
Norwegian University of Life Sciences (NMBU)	7 =	7
Norwegian University of Science and Technology	7 ↓	10
University of Tromsø	7 ↓	8

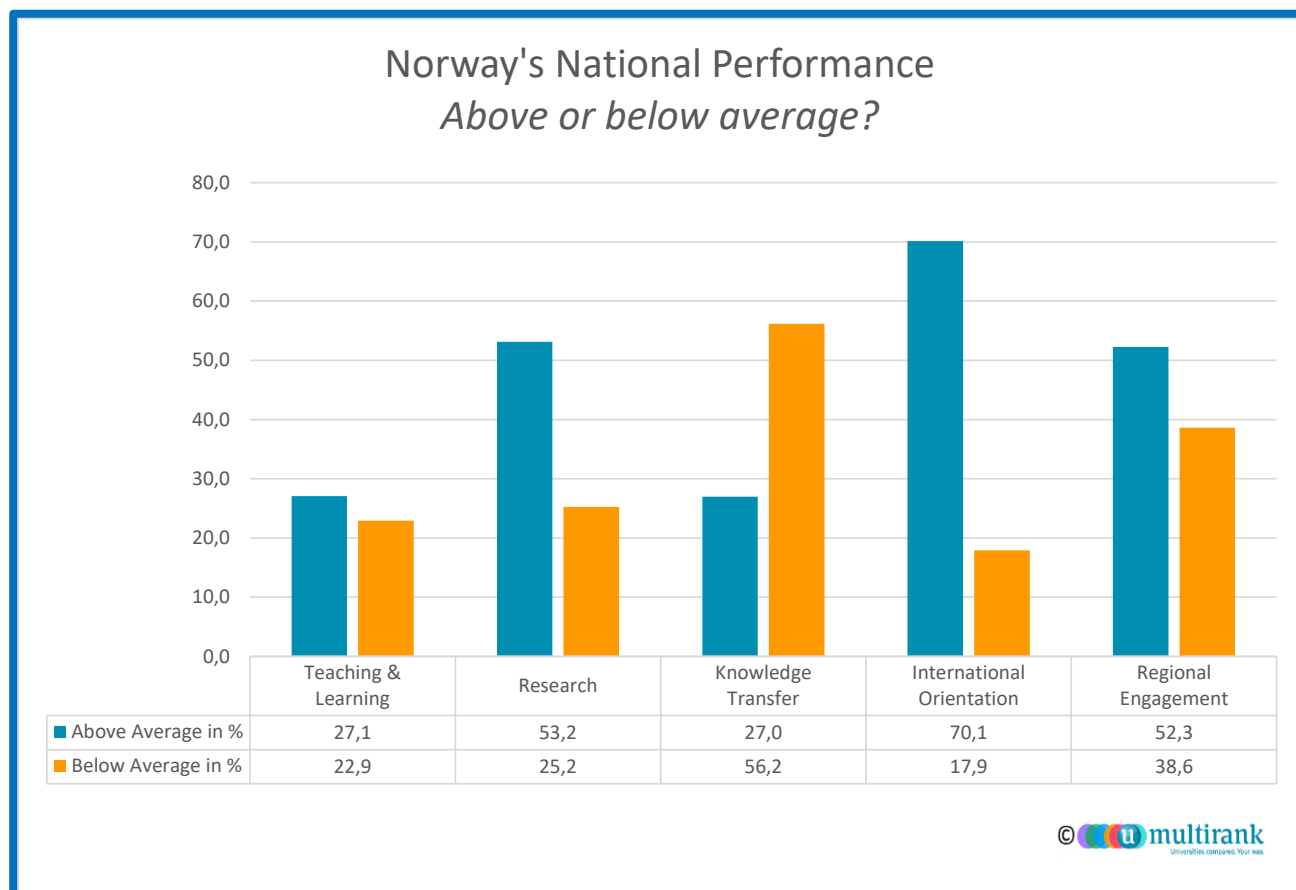

Our unique sunburst charts give a clear picture of the university's overall performance profile across all dimensions and a set of indicators (the longer the bar, the higher the score; missing bars indicate missing data).

D. National performance: above or below average?

In this section we highlight the overall performance of Norwegian universities on the institutional level per U-Multirank dimension. The below table shows the national breakdown of Norwegian universities and how they stand across the spectrum of above average (receiving a score of 'A' (very good) or 'B' (good)), or below average (receiving a score of 'D' (below average) or 'E' (weak)). In doing so, U-Multirank offers a clear picture on the countries strengths, and areas for improvement.

Norway's higher education institutions perform strongest in U-Multirank's Research and International Orientation dimensions.

E. Top 25 performers lists

In this section, U-Multirank presents the global Top 25 performers in a set of 9 indicators measuring different dimensions of performance. These lists highlight the 25 top-performing universities from around the world with the highest scores.

Norwegian universities that have achieved a global Top 25 score are listed under the respective categories:

Dimension Research

1. Research publications (absolute numbers)
2. Top-cited publications
 - *Norwegian School of Sport Sciences*
3. Interdisciplinary publications

Dimension Knowledge Transfer

4. Co-publications with industrial partners
5. Patents awarded (size-normalised)
6. Income from continuous professional development

Dimension International Orientation

7. Student mobility
8. International joint publications

Dimension Regional Engagement

9. Regional joint publications

Here you can see the [full lists](#) of all global Top 25 performers.

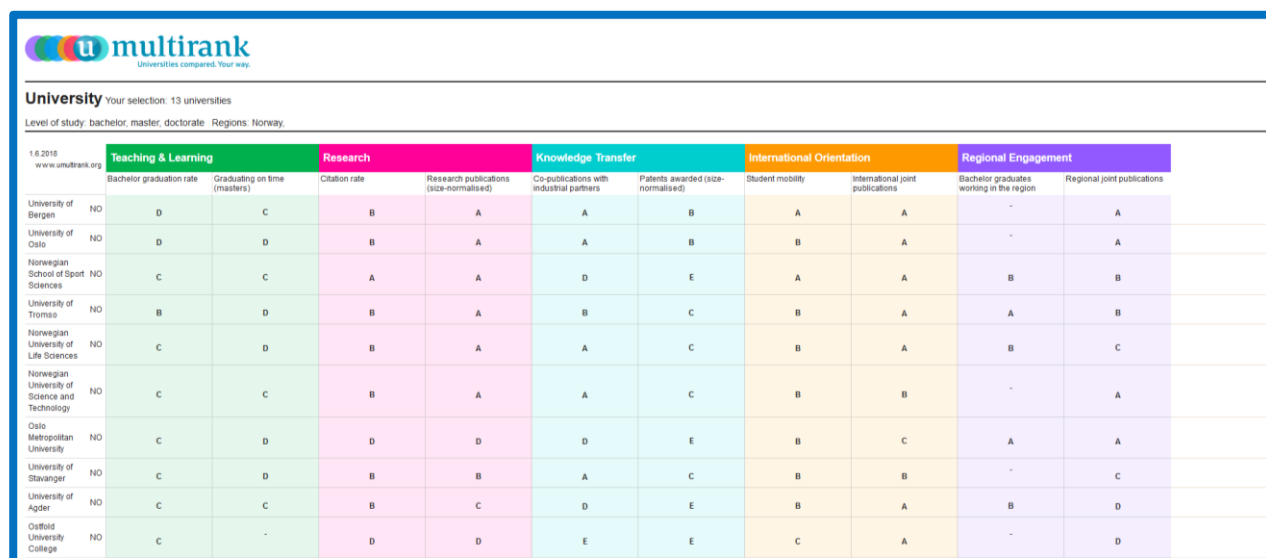

F. Appendix

Detailed results:

If you want to analyse further the performance of the universities in your country you can click the following links. The below links lead directly to the national results pages where we pre-filtered the universities in your country into one list (for the university as a whole and for the subject areas included in U-Multirank so far). You can use the table to produce national rankings (see image below), or for personalised interactive analyses with the data. If you're interested in tailor-made tables (institutional level, subject level, or with a specific focus in mind, such as internationalisation), please contact us, at info@umultirank.org. These links are also accessible via your country's 'Study in' page.

Note: The links will be accessible, starting the day of the release at 10:30 CET.
